HOPE FOR THE HOPELESS: HOPEE FOUNDATION INT'L TAKES THE LEAD

Passion for the less privilege in the society is a key needed to bring about Joy and rekindling of love in the heart of those under this condition in our present dispensation. A demonstration of this was seen in Africa, to be precise in Abia State Nigeria, the HOPEE Foundation International took the lead, under the leadership of Prince Madu Gabriel and wife, who are the initiator and founder in December, 2004 with a team of medical mission.

The event that sparked the light started on the 1st of December to 4th drew a lot of attention, with a visit to two motherless baby homes where gifts ranging from clothes, shoes, toiletries and food items were distributed. Ahiake motherless baby home and Ozoakoli motherless baby home. At Uzoakoli, the situation on ground was very sympathetic to which the founder of the foundation shed tears on what he saw with his eyes.

Prince Madu Gabriel described that the environment where these babies are kept are nothing to write home about, ranging from no cloths to put ON, the three square meal that these children needed at this their tender age was nowhere to be found. To worsen the matter, the rashes on the bodies of the babies as a result of the nature of bad beds which are filled with bedbugs on which they sleep on are better imagined.
